

The Beacon Light Fund assists those who are infected/affected by HIV/AIDS by providing nominal grants to help with various expenses including rent, utilities, medical equipment and supplies, various home care services, and other necessary services.

Those seeking help can contact us by emailing [info@mgnja.org](mailto:info@mgnja.org) and requesting an application.

This past year, we were able to help by providing Thanksgiving dinner baskets to five families in the community who were in need. We are also expanding our reach by educating the public about HIV/AIDS through community activities.

MGNJA, Inc. is a 501(c)(3) organization founded in 2000 by four individuals who saw a particular need in the community. Since then, tens of thousands of dollars have been raised and has provided help to members of the community who have reached out.
